

FOCUSO

CONSOLIDATED BRAND SYSTEM / V1.0 / SEPTEMBER 2026

Brand Guidelines

A practical identity system for a modern Muslim productivity
and personal-growth brand.

BRAND IDEA

Plan what matters.
Stay consistent.

IDENTITY PRINCIPLE

**Modern. Calm.
Intentional.**

Premium without ornament. Faith
integrated through function.

A productivity brand designed around real Muslim life.

FOCUSO creates practical tools that help Muslims bring more structure, consistency and intention into everyday life. It begins with a premium, undated 60-day planner for Bangladesh and is designed to grow into a wider physical and digital personal-growth ecosystem.

WHAT IT OFFERS

One system for the things people usually manage separately.

Goals, daily planning, study or work, habits, Salah and Qur'an are brought into one clear routine rather than scattered across disconnected tools.

WHAT MAKES IT DISTINCTIVE

Muslim by design - not by decoration.

FOCUSO sits between generic productivity products and heavily themed Islamic journals. The value is the system itself: useful, restrained and naturally aligned with Muslim priorities.

PRIMARY LAUNCH AUDIENCE

University students

Classes, assignments, exams, self-development, Salah and study habits.

Competitive exam candidates

Long study periods that require planning, repetition and consistency.

Young professionals

Work, learning, career growth, health, responsibilities and Salah.

SHARED MINDSET

Ambitious and self-improving, but not always consistent in execution.

DESIRED EMOTIONAL OUTCOME

“I feel more in control of my day.”

Structure. Consistency. Intention.

BRAND PURPOSE

Help Muslims bring more structure, consistency and intention into everyday life through thoughtful, practical tools.

CURRENT LAUNCH PROMISE

Plan what matters. Stay consistent. Make the next 60 days count.

BRAND PERSONALITY

MODERN

CALM

INTENTIONAL

DISCIPLINED

THOUGHTFUL

PRACTICAL

RESTRAINED

CORE VALUES

01

Intentionality

Make space for what matters rather than filling space with more features.

02

Consistency

Design for repeatable everyday use, not short-lived motivation.

03

Usefulness

Function before feature count. Clarity before novelty.

04

Restraint

Premium through hierarchy, whitespace and editing - not ornament.

POSITIONING STATEMENT

We create modern tools that help Muslims bring more structure, consistency and intention into everyday life.

RESPONSIBILITIES

Study, career, tasks, projects and deadlines.

FAITH

Salah, Qur'an and personal Islamic habits.

PERSONAL GROWTH

Health, learning, discipline and habits.

Clear enough to act on. Calm enough to trust.

FOCUSO should sound like a thoughtful productivity brand that understands Muslim life - never like a motivational speaker, a corporate app, or decorative religious stationery.

Clear & direct

Use short sentences, concrete verbs and one idea at a time. Explain the system instead of overselling it.

Calm & encouraging

Support progress without guilt, pressure or spiritual moralizing. Confidence should feel quiet.

Specific & useful

Talk about priorities, routines, Salah, time blocking, habits and follow-through - not vague transformation.

WRITING STYLE

- ✓ Lead with the customer tension or practical benefit.
- ✓ Prefer sentence case and natural punctuation.
- ✓ Use simple, familiar words over branding jargon.
- ✓ Keep faith language integrated and matter-of-fact.
- ✓ Write Bangla as native Bangla, not translated English.
- ✓ Keep English and Bangla visually distinct when paired.
- ✗ Hype, superlatives, urgency or "life-changing" claims.
- ✗ Hustle-culture language, guilt or productivity shaming.
- ✗ Generic "Islamic lifestyle" phrases with no useful meaning.
- ✗ Decorative Arabic/Islamic references added only for tone.
- ✗ Excessive emojis, hashtags, exclamation marks or slogans.
- ✗ Forced transliteration-style Bangla copy.

ON-BRAND / OFF-BRAND

ON-BRAND

"You have goals, but no system for turning them into daily action."

"A productive day is knowing what matters and following through."

"কাজ, ইবাদত ও অভ্যাসকে একটি পরিস্কার দৈনিক সিস্টেমে গুছিয়ে নিব।"

OFF-BRAND

"Unlock your ultimate productivity journey today!"

"The #1 Islamic planner that will transform your life."

"আজই আপনার জীবন পুরোপুরি বদলে ফেলুন!"

Use the wordmark exactly as supplied.

FOCUSO

APPROVED ASSET

Primary wordmark

The supplied FOCUSO wordmark is the only approved logo asset in the current source set. Preserve its proportions, letterforms, color and internal spacing.

No approved standalone symbol, secondary lockup or reversed/light version was supplied.

BACKGROUNDS

Use on white, Soft White or other very light neutral fields where the original wordmark remains crisp. On imagery, place only over a quiet, light area with strong legibility.

Do not invent a white logo for dark backgrounds.

CLEAR SPACE & MINIMUM SIZE

RECOMMENDATION

0.5x

FOCUSO

Clear space: keep at least 0.5x of the visible wordmark height around all sides.

Digital minimum: 120 px wide.

Print minimum: 32 mm wide.

Use larger sizes whenever the wordmark is a primary brand moment.

NEVER

Stretch

or compress the mark.

Recolor

or add gradients/
effects.

Rebuild

or retype the lettering.

Obstruct

with busy imagery or
low contrast.

Muted green, warm neutrals, editorial restraint.

Color should support hierarchy, not compete with it. Most compositions remain neutral; green carries brand recognition and action, while cream is a very limited reflective accent.

 FOCUSO Green #377F62 Primary brand, CTA, key highlight	 Deep Green #285E49 Secondary emphasis, deeper brand moments	 Ink #323232 Headlines, navigation, primary text
 Soft Green #EAF2EE Quiet surfaces, faith/reflection moments	 Warm Cream #F0EAC0 Sparse accent, reflection, small highlights	 Soft White #F8F8F8 Primary background and neutral surface

RECOMMENDED BALANCE

FAITH / REFLECTION

Pause. Reflect. Continue.

Use Soft Green or a restrained cream accent for Qur'an, Salah and reflective moments without turning the system decorative.

UI NEUTRALS

RECOMMENDATION

For borders and secondary text, use **Ink at reduced opacity** rather than introducing more gray hex values: 12-18% for borders, 60-72% for secondary text.

One voice. Two scripts.

The typography system combines an editorial display layer with a highly functional sans-serif layer. English and Bangla should feel equally intentional, but they do not need identical metrics.

ENGLISH DISPLAY

DM Serif Display

Specified: 400. Major editorial moments only.

ENGLISH UI + BODY

Inter

400-600. Functional, precise, readable.

BANGLA DISPLAY

নোটো সেরিফ বাংলা

Noto Serif Bengali, 600-700, generous line-height.

BANGLA UI + BODY

নোটো সান্স বাংলা

Noto Sans Bengali, 400-600.

CORE HIERARCHY

ROLE	ENGLISH	BANGLA
Hero	DM Serif Display 72/80, 400	Noto Serif Bengali 58/70, 600-700
Page H1	56/62, 400	46/58, 600-700
Section H2	40/48, 400	34/46, 600
H3 / card	Inter 28/36, 600	Noto Sans Bengali 24/34, 600
Body	Inter 17/28, 400	Noto Sans Bengali 17/30, 400
Nav / CTA	Inter 16/24, 500-600	Noto Sans Bengali 16/26, 500-600

TYPE RULES

- ✓ Serif for meaningful display moments.
- ✓ Sans-serif for UI, product details and long copy.
- ✓ Use hierarchy before adding type variety.
- ✗ Do not track Bangla.
- ✗ Do not use serif for buttons or dense UI.
- ✗ Do not compress Bangla line-height to match English.

Editorial clarity, functional structure, quiet confidence.

Layout

Use disciplined grids, generous whitespace and clear grouping. Let the page breathe. The planner prototype shows the right behavior: modular sections without visual noise.

Cards & surfaces

Rounded rectangular modules, thin borders, soft neutral headers and strong internal spacing. Prefer surface shifts over heavy shadows.

Iconography

Simple monochrome line icons with a functional role. Keep stroke weight consistent and avoid decorative icon sets.

Faith moments

Create a calm pause through typography, spacing and soft color - not crescents, mosque silhouettes, lanterns or ornate patterns.

PHOTOGRAPHY

RECOMMENDATION

Product first

Show real paper, writing space, texture and use. Make the system understandable at a glance.

Natural context

Use calm desks, study/work settings and natural light. Human presence should feel purposeful, not staged.

Restrained treatment

Neutral backgrounds, honest color, minimal props. Avoid stock-photo cliches and heavy filters.

Editorial at first glance. Functional in use.

Digital experiences should carry the calm, premium character of the brand while becoming simpler and more utilitarian as users browse, compare or buy.

BUTTONS

Primary: FOCUSO Green + Soft White, Inter/Noto Sans 600, sentence case. Secondary: neutral outline or text action. Avoid oversized pill CTAs.

CARDS & SURFACES

Your week at a glance

Use white or Soft Green surfaces, subtle borders and restrained corner rounding. Cards should clarify structure rather than decorate the screen.

SYSTEM RULES

Body readability	Avoid body text below 16px on web.	Spacing	Use a consistent 8px base grid with larger 24-48px section intervals.
Contrast	Ink for primary reading. Green for brand/action, not long body copy.	Motion	Short, functional transitions only. No decorative looping motion.
Responsive	Preserve hierarchy and whitespace; allow Bangla more vertical room.	Interaction	Clear states, predictable controls, minimal cognitive load.
Surfaces	Prefer border + tonal shift over drop shadows.	Dark mode	Not defined in current sources. Do not improvise a dark brand system yet.

PRODUCT PRINCIPLE

Useful enough to become a routine. Simple enough to use every day.

Function before feature count. Strong information hierarchy over density.

Translate the system, not just the colors.

Every application should preserve the same balance: serious productivity utility, calm Muslim relevance and a premium restrained visual language.

WEBSITE

Lead with the problem, then show the system.

Use a large editorial headline, a short explanatory line, one clear CTA and product visuals that reveal how monthly, weekly and daily planning connect.

SOCIAL MEDIA

One idea per post.

Keep visual copy minimal. Use strong customer tensions, practical productivity ideas and real product details instead of generic motivational posts.

PRESENTATION

Editorial statement + structured evidence.

Use generous white space, large serif headlines, restrained green highlights and clear tables. Keep the 70/20/8/2 color balance in mind.

ADS & CAMPAIGNS

Market the tension and desired transformation.

Show why consistency is difficult and how a clear system helps. Avoid fabricated outcomes, exaggerated promises or faith used as an attention device.

CAMPAIGN CONTENT TERRITORIES

Productivity

Planning, focus, prioritization, time blocking.

Discipline

Consistency, routines, habits, distraction reduction.

Muslim lifestyle

Balancing Salah, Qur'an and study/work.

Product education

How monthly, weekly and daily tools work.

PACKAGING & PRINT

Keep the exterior calm and premium: logo, product name, essential information and tactile material quality. Do not turn the package into a decorative Islamic gift object. The product should feel like a serious daily tool.

Protect the restraint.

FOCUSO becomes distinctive through consistent editing. When in doubt, remove decoration, simplify the message and make the product easier to understand.

DO

- ✓ Position FOCUSO as modern Muslim productivity and personal growth.
- ✓ Integrate faith through useful product structure.
- ✓ Use whitespace, hierarchy and typography as primary design tools.
- ✓ Keep the palette neutral-led and green-led only when needed.
- ✓ Use the serif layer selectively for meaningful moments.
- ✓ Keep UI and long copy functional in sans-serif.
- ✓ Show how the system helps people follow through.
- ✓ Let product photography feel real, calm and tactile.

DON'T

- ✗ Position the brand as generic "Islamic stationery."
- ✗ Add mosque silhouettes, crescents, lanterns or ornate filler.
- ✗ Default to green-and-gold religious visual cliches.
- ✗ Overload layouts with trackers, prompts, badges or features.
- ✗ Use gradients, heavy shadows or decorative effects.
- ✗ Retype, recolor, stretch or rebuild the official wordmark.
- ✗ Use hype, guilt, fake urgency or unproven claims.
- ✗ Force English layout metrics onto Bangla typography.

THE FASTEST CONSISTENCY TEST

1

Is it useful?

Does this help someone plan, understand or act?

2

Is it calm?

Does the design create clarity rather than noise?

3

Is it naturally Muslim?

Is faith integrated through relevance and function rather than decoration?

The FOCUSO system at a glance.

ELEMENT	APPROVED DIRECTION
Brand territory	Modern Muslim productivity and personal growth.
Positioning	Modern tools that bring structure, consistency and intention into everyday Muslim life.
Current product	Premium, undated 60-day A5 Muslim productivity planner.
Primary audience	Young Bangladeshi Muslims, approximately 18-30: students, exam candidates and young professionals.
Core promise	Plan what matters. Stay consistent. Make the next 60 days count.
Logo	Official supplied FOCUSO wordmark only. No alternate/reversed/icon assets currently approved.
Primary color	FOCUSO Green #377F62.
Supporting colors	Deep Green #285E49, Ink #323232, Soft Green #EAF2EE, Warm Cream #F0EAC0, Soft White #F8F8F8.
English type	DM Serif Display + Inter.
Bangla type	Noto Serif Bengali + Noto Sans Bengali.
Visual principle	Modern and minimal; premium through whitespace, hierarchy and function.
Faith principle	Muslim by design, not by decorative Islamic graphics.
Content focus	Productivity, discipline, Muslim lifestyle and product education.
Dark mode	Not yet defined. Create a separate approved palette and logo treatment before implementation.

RECOMMENDATIONS INTRODUCED IN THIS GUIDE

Logo production: 0.5x clear space; minimum 120px digital / 32mm print.

UI neutrals: derive borders/secondary text from Ink opacity instead of adding new gray colors.

Digital system: 8px spacing base, restrained functional motion, subtle borders over shadows.

Photography: product-first, natural context, neutral treatment.

DECISION RULE

If a new execution feels decorative, noisy or generic, simplify it until the system feels useful, calm and intentional again.

Consolidated from the FOCUSO Startup Idea & MVP Foundation, Brand Color Palette, Typography System, Muslim Planner A5 Premium Prototype, and the supplied official logo asset. Brand facts not present in those materials have not been treated as established rules; recommendations are labeled.
